DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 2 – 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim 2 recites the broad recitation "standardized colors", and the claim also recites "RAL primary colors", which is the narrower statement of the range/limitation.

4. In the present instance, claim 3 recites the broad recitation "an extractor", and the claim also recites "a carrousel extractor", which is the narrower statement of the range/limitation.

Art Unit: 3653

5.

6. In the present instance, claim 5 recites the broad recitation "plastics", and the claim also recites "LDPE, PP", which is the narrower statement of the range/limitation. The same is true of claims 6 and 7.

7. In the present instance, claim 9 recites the broad recitation "for recycling plastics", and the claim also recites, "for recycling other materials", which is the narrower statement of the range/limitation.

8. Claim 3 recites the limitation "the extraction medium" in lines 3 and 4. There is insufficient antecedent basis for this limitation in the claim.

9. Claim 8 recites the limitation "the non-plastics" in line 2. There is insufficient antecedent basis for this limitation in the claim.

10. Claim 10 recites the limitation "the color separating means" in lines 1 and 2. There is insufficient antecedent basis for this limitation in the claim.

11. Claim 12 recites the limitation "the organic material" in line 4. There is insufficient antecedent basis for this limitation in the claim.

12. Claim 14 uses to "they" in line 6. What is "they" referring to?

Claim Rejections - 35 USC § 102

13. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3653

14. Claims 1, 2 and 9 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Sommer, Jr. et al. See col. 1, lines 38+, and col. 11, lines 49 +.

Conclusion

15. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Other relevant prior art is listed in the Form 892.
